

# Setting up Fermilab Acc

Steps to do this

- Get latest kerb5 config file (only first <me) from the following link:

<http://compu<ng.fnal.gov/authen<ca<on/krb5conf/OSX/krb5.conf>

- kinit [nraha@FNAL.GOV](mailto:nraha@FNAL.GOV)

- klist – gives <me <ll which ssh works

- First <me only – configure ssh link below:

<https://cdcv.s.fnal.gov/redmine/projects/g-2/wiki/ConfiguringSsh>

- source ~/.ssh/config

- ssh gm2gpvm

- Finally execute step wise from chapter 3 of manualG2M.pdf (same directory)

NOTE: My development area: /gm2/app/users/nandita/gain\_study

Passwords (both Kinit & ssh): godbless1!
